PROJECTS

Campus Darshan | [React Native](#), [Three.js](#), [Firebase](#), [Firestore](#), [GCP](#), [Expo](#)

- Built a cross-platform 360° virtual campus tour app with AI-driven personalization, narration, and multilingual support.
- Integrated gamified campus quests, alumni talks, placement showcase, and real-time event replays for enhanced engagement.
- Mapped nearby PGs and food options using Google Maps API and hosted media via Google Cloud for seamless access.

HomeSaathi | [MySQL](#), [C++](#), [HTML](#), [CSS](#), [XAMPP](#)

- Developed a house booking platform matching options based on type, budget, and location.
- Provided details of owners, including name, contact, and email, for each option.
- Enabled users to contact owners directly after finalizing a house.

Delhi Travel Guide | [C language](#), [VS Code](#), [MySQL](#)

- Developed a comprehensive travel guide platform in C language, showcasing various attractions in Delhi.
- Included features such as historical details, reviews, nearby food options, and additional visitor information.
- Implemented user-generated content, allowing travelers to add new reviews and ratings for the places they visited.
