EDUCATION

National Institute of Technology Delhi, New Delhi

Bachelor of Technology in Computer Science Engineering

CGPA: 8.88/10

Graduating 2026

Shah Faiz Public School Ghazipur, Uttar Pradesh

Central Board of Secondary Education (CBSE) Class XII

Percentage: 95.60%

Completed June 2021

EXPERIENCE

SWE Intern - Microsoft | C#, .NET, Azure Load Testing | June 2025 - July 2025

- Developed a scalable subscription life-cycle handler and job orchestration system to manage state transitions, ensuring compliance with internal protocols. Also wrote unit tests to maintain system's reliability.
- Refactored a legacy code-base to enhance clarity, producing well-structured and thoroughly documented code.

PROJECTS

AlumniNest | React Native, Node.js, Express, MongoDB, Socket.IO | 

- Developed a full-stack mobile platform to bridge the alumni-student gap with features like real-time chat, mentorship connections, opportunity sharing, and instant notifications to enhance engagement.
- Designed and optimized a secure, scalable backend with JWT-based role-based access control, refined APIs and database schemas to support fast, real-time chat, reducing message latency by 40%.

Harmonika | Python, NextJs, Machine Learning | [Link](#)

- Built personalized music-recommender based on audio features by K-means clustering on 10,000+ Spotify tracks.
- Improved recommendation quality by selecting 80% songs from the same cluster and 20% from nearby clusters, also applying content-based filtering to rank and personalize suggestions, making music discovery more accurate.

Visualizer Tool | C, CSS, GTK Toolkit, GObject | 

- Developed a desktop-based geometric visualization tool using C and GTK, featuring real-time coordinate tracking, shape selection, color customization, and undo/redo functionality.
- Applied object-oriented principles to modularize shape logic, UI behavior, and memory management.

SKILLS

Languages: Java (DSA), C, Python, JavaScript, HTML, CSS, SQL

Frameworks & Libraries: Next.js, React.js, Node.js, Tailwind CSS, Flask, NumPy, Pandas, Scikit-learn, Matplotlib

Expertise: Full-Stack Web Development, Competitive Programming, Machine Learning & AI, Debugging, Testing

Developer Tools: Git, Jupyter Notebook, Linux, VS Code, Figma

ACHIEVEMENTS

- Solved **1500+** problems, in the **Top 5%** on [Leetcode](#), with Max **Rating 2000+ Knight**.
- Solved **250+** problems on [Codeforces](#) with Max **Rating 1414 Specialist**.
- Semifinalist** in [Flipkart Grid 6.0](#) and [Meesho Dice Challenge](#).

EXTRA-CURRICULAR

Leadership Roles: Technical Head at GDSC and Executive Member at the Training & Placement Cell, NIT Delhi.

Technical Activities: Participated in Invictus Hackathon (DTU), designed websites for International Conferences [IC2SDT](#) and [ICECSP](#) for CSE and ECE Department NIT Delhi.

Interests: Graphic Designing, Chess, Badminton, Physical Fitness

COURSEWORK

Object Oriented Programming, Compiler Design, Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Architecture & Organization, Software Engineering, Computer Networks, Theory of Computation, Data Mining
